Gerstner GE, **M Cooper**, and P Helvie. Chewing rates among domestic dog breeds. *Journal of Experimental Biology* 2010; 213:2266-2272.

Narrative Report

I have been focused on clinical practice and delivery of high-quality endodontic care to my patients since completion of my training. I am well respected by my colleagues and sought after by patients. After years of clinical experience, I feel compelled to return to an academic environment and to pass along my knowledge as an educator.
